The physicians of Richmond, seventeen in number, have signed an agreement to prosecute to the fullest extent of the law any person practicing medicine or prescribing for a sick person contrary to the provisions of the law on the subject.

The Farm Journal is unlike any other paper; for one thing it prints no quack medical advertisements; for another it takes five-years subscriptions and gets the paper to its subscribers the full time if they are anywhere on this planet, even if they move two or three times; if they die their heirs get it. Now we are going to send the Farm Journal for the balance of 1899, and all of 1900, 1901, 1902 and 1903, nearly five years, to every advance-paying subscriber to the Times, but better speak quick, as we have only a limited number Farm Journals to offer on these terms.

A Drunkard's Will

One of the most successful merchants of Richmond handed us the following unique will and testament of a once honored citizen whose name he does not give, says the Richmond Climax.

Here it is:
"I leave to society a ruined character and a wretched example. I leave to my parents as much sorrow as they can in their feeble state bear. I leave my brothers and sisters as much shame and mortification as could bring on them. I leave to my wife a broken heart—a life of shame. I leave to each of my children poverty, ignorance, a low character, and a remembrance that their father killed a drunkard's grave."

There are now thirty-five divorce suits pending in the Circuit Court.

A Serious Accident.

At Derision's saw mill on Hardwick's creek, Tuesday, Ray Burgher, aged about 20 years, happened to a very serious accident. He was off bearing at the mill, and was trying to push the log carriage on the track, when he slipped and fell, falling in a manner so that one of his feet struck the saw, which cut one of his big toes off, together with a good portion of his foot, and a large iron wedge struck his leg, breaking it just below the knee and tearing a large amount of the flesh from the bone. Dr. B. Littlepage, of Clay City, was called in and dressed the unfortunate boy's wounds. The injured leg is so badly shattered that amputation may prove necessary.

A WONDERFUL CURE OF DIARRHOEA.

A PROMINENT VIRGINIA EDITOR Had Almost Given Up, but was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

From the Times, Hillsville, Va.
I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life.—O. R. Moore. Sold by J. W. Dawson & Bro., Druggists.

The Newspaper in Public Schools.

The use of newspapers in public schools is growing each year. Teachers find there is no better way of arousing interest among their pupils. Get a boy to read a good news story and he is interested at once. If it tells about the charge up the hill at San Juan or the sea fight off Santiago in which young men from his own or state participated, his eyes will flash and his mind will be on the qui vive.

Geography means something to him then. He will study to see Cuba is located without any suggestion from his teacher. He will ask questions about the island and will eagerly read every newspaper article he can find on the subject. His mind is active and if rightly directed he will learn more in two weeks about history, geography and national affairs than he would in a whole year from a dry text book.—Exchange.

MATRIMONIAL.

Mr. Charley Dawson and Miss Lula Chism, daughter of Bill Chism, of Log Lick, eloped Monday to Maysville, crossed the Ohio river and were married. The happy pair returned Tuesday to ask forgiveness of the young lady's irate parents. This is Mr. Dawson's second adventure upon the matrimonial sea. May joy and prosperity be ever with the young people.

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. Va., struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by J. W. Dawson & Bro., Druggists.
